

HelloI love my XM Radio. I travel all over the US for work and carry it with to each city. The traffic and weather channels are very important to me! Being in different cities, and sometimes 2 or 3 differnet cities in a day, this is a convenient and easy way for me to be on top of situations. Weather and Traffic are the main reason I subscribe to this service. Please reject NAB's Petition 04-160.

THanks You

Brent Brickman
